Professional Summary

Empathetic and skilled Support Worker with a robust background of five years in delivering exceptional patient care across hospitals and residential care facilities. Adept at assisting with personal hygiene, mobility, and nutritional needs while maintaining a respectful and patient-centered approach. Proven ability to collaborate effectively with healthcare professionals, support patients' emotional well-being, and handle emergency situations with composure. Committed to continuous learning and maintaining high standards of cleanliness and infection control. Ready to contribute to a dynamic healthcare team dedicated to improving patient outcomes.

Experience

Healthcare Support Worker Unique Community Services

2023 - present

- Delivers 'hands-on' care to the clients in a person-centred way and in line with the agreed support plan.
- Providing direct care and support, helping patients with their daily routines, and encouraging participation in therapeutic activities.
- Monitor all clients and inform the Registered Management and/or Assistant Registered Manager of any change in needs to client capabilities in order for this to be effectively reflected within the support plan.
- Ensure that care is delivered following infection control and prevention policies and procedures and is delivered in a person-centred and dignified way.
- Ensure that documentation is relevant and regularly carried out and is reflective of the activity being carried out.
- Offering empathetic listening and emotional support, helping patients cope with their conditions
- Utilizing PMVA (Prevention and Management of Violence and Aggression) and ProACT SCIP-R (Strategies for Crisis Intervention and Prevention - Revised) training to safely manage challenging behaviours and ensure the safety of all individuals.

Senior Care Assistant Cucumber Health Care Service

2021 - 2023

- Aid residents with personal hygiene tasks such as bathing, dressing, grooming, and toileting, ensuring they maintain dignity and comfort.
- Assist with mobility, including transferring residents from bed to wheelchair and vice versa, using appropriate equipment when necessary. Develop and lead activities for service users.
- Monitor and record vital signs (blood pressure, temperature, pulse) and report any abnormalities to nursing staff.

- Administer medications as directed by healthcare professionals, ensuring proper documentation and adherence to protocols.
- Offer emotional support and companionship, engaging residents in conversations and activities to reduce feelings of isolation and loneliness.
- Encourage participation in social and recreational activities tailored to individual preferences and abilities.
- Ensure a clean, safe, and comfortable living environment by adhering to infection control, health, and safety guidelines.
- Provide comprehensive care for bed-bound residents, including regular repositioning to prevent pressure sores, skin care, and ensuring comfort.
